

MRS Community Hub

What is a Community Hub? Community Hubs provide a focal point and facilities to achieve greater community activity and bring tenants, landlords, local business and smaller charity and 'not for profit' organisations together to improve the quality of life in the community. Advocating independent lives, whilst working in the community for the community.

MRS CIC and Second Chance Housing Support Charity will be working from **MRS Community Hub** from the beginning of January 2018

- We work with multi-purpose community centres to share lessons learned and best practice
- Provide a new approach to community development by sharing ideas, thinking big, staying positive and keeping an open-door policy
- Inspire change by reviewing what we do to improve services provided
- Help individuals to develop skills to build sustainable communities
- Support other community centres by facilitating a range of expertise and support

We achieve this by:

- Measure ourselves against known community requirements so we can demonstrate impact and prove we deliver high quality demand-led services
- Maximise resources across the community networks to foster more effective ways of working
- Sharing lessons learned and implementing best practice to facilitate community development, which is based on reflective practice
- Conceiving and implementing an innovative approach to community development that builds skills and create routes out of poverty and social isolation
- Working together to actively avoid the duplication of services and establish strategic partnerships and joint-fundraising, income generation and cost-saving initiatives
